

STUDENT PUBLIC WORK

Final Recommendation

Student and Community Framework for Governing AI in NYC Schools

Team, school or program, and date

Make a clear choice. Show the evidence. Name the tradeoffs. Give your audience something it can answer.

1. The decision

State the exact policy or practice being decided. Name the age group, AI use, setting, purpose, and decision-maker.

Write here

2. Our recommendation

State what should be prohibited, tested, permitted with conditions, or expanded - and why.

Write here

3. What we learned

Present the strongest evidence. Distinguish facts, stakeholder testimony, interpretation, and uncertainty.

Write here

4. Who is affected

Explain likely benefits, burdens, and risks. Name whose voice remains missing.

Write here

5. Ownership and value

Who owns the data, models, infrastructure, student work, and economic value? What should remain public, local, portable, or collectively governed?

Write here

6. Rules, rights, and responsibilities

Specify permitted and prohibited uses, adult responsibilities, student rights, privacy, disclosure, access, accountability, appeal, and conditions for ending the use.

Write here

7. What happens first

Name the first action, who is responsible, the resources required, and how we will know it happened.

Write here

8. Dissent and uncertainty

Record meaningful disagreement and evidence that could change your recommendation.

Write here

9. What we are asking from our audience

Ask the receiving institution to respond by a specific date: what it accepts, rejects, or will test, and why.

Write here

10. The public response

After the presentation, record what your audience heard, what it questioned, and what it will do next.
